OBJECTIVES AND INVESTMENT POLICY

The investment objective of the Fund is to outperform the MSCI World Index (as defined in the Prospectus) and to provide capital growth over a medium to long-term time horizon. The Fund will invest in shares listed on Recognised Markets in accordance with the requirements of the Central Bank of Ireland and which meet the regulatory criteria (regulated, operate regularly, be recognised and open to the public) and which are listed in the Prospectus. It is not expected that the Fund will have a focus in any particular country or sector.

Essential features of the product which a typical investor should know:

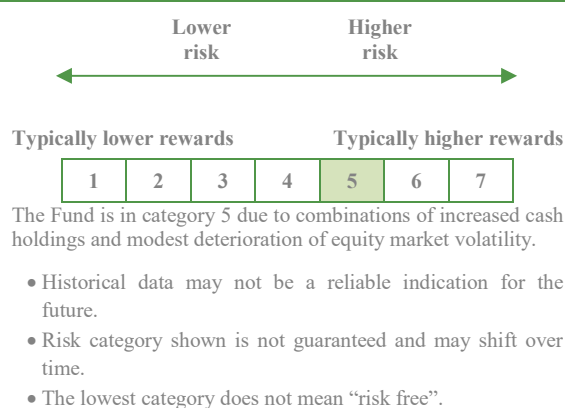

- The Fund will typically comprise fewer than 40 equities, primarily in large and mid-sized companies, from a range of industry sectors.

The Fund is currently permitted to invest in options for efficient portfolio management purposes.
- Shares in the Fund may be redeemed on demand, subject to certain restrictions, on each Business Day.

- Investment in the Fund is suitable for investors who expect to maintain their investment over the medium to long term horizon.

This creates exposure to currency movements. The difference between the returns in the EUR and GBP classes and the USD class is due only to changes in the EUR/USD and GBP/USD exchange rates over the measurement periods.
